Micro-Nano-Fluidics Meeting

May, 6-7 2021. Toulouse, France

6 Sessions: Nanofluidics, Chemical engineering, Flow-waves Interactions
Flow Chemistry, Diagnostics and Clinics, Organs-On-Chip

6 Invited lectures by laureates of “Young Researcher in microfluidics” prizes

3 Confirmed Plenary Speakers:

Anke Lindner– PMMH, ESPCI, Paris

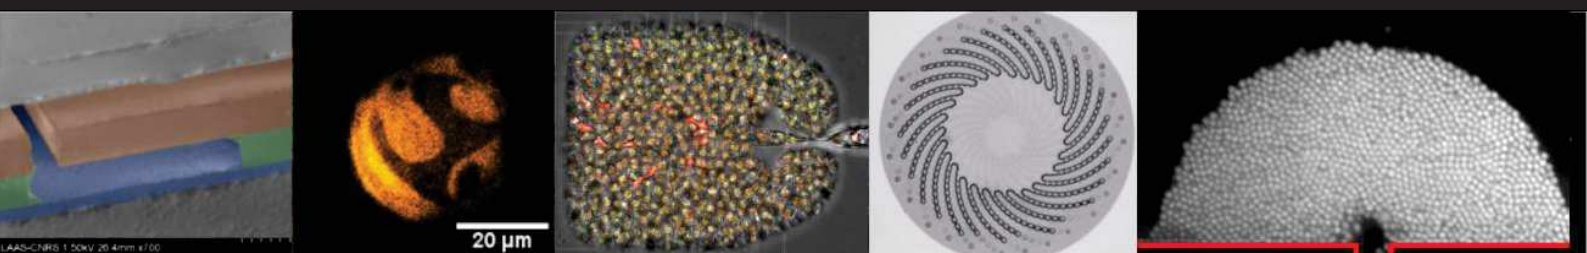

Steering microscopic particles in viscous flows via shape and deformability

Christophe Marquette – ICBMS, GEMBA, Lyon

Bioprinting and 3D printing

Fabien Montel – Lab Phys, ENS Lyon

Transport through biomimetic nanopores : directionality and selectivity

Submission of Contributed Talks and Posters will be open soon!

Scientific Committee:

Anne-Laure Bianco (ILM, Lyon)

Morgan Delarue (LAAS-CNRS, Toulouse)

Stéphanie Descroix (Institut Curie, Paris)

Pierre Joseph (LAAS-CNRS, Toulouse), co-chair

Christine Lafforgue (TBI, Toulouse)

Olivier Liot (IMFT, Toulouse), Chair

Sylvie Lorthois (IMFT, Toulouse)

Karla Perez Toralla (CEA, Paris)
